CURRENT SITUATION AND ITS EFFECTS

The City of Berkeley receives Federal Title X Funds to provide reproductive health services at the Public Health Clinic, BHSHC and B-Tech Health Center. Federal Title X Funds are given to California through a non-profit agency, the California Family Health Council (CFHC), and are then dispersed to local health jurisdictions throughout the State through a competitive grant process. The funds are used to support clinical reproductive health services, as well as individual and community health education and outreach activities. The City is reimbursed for clinical and individual health education

services through California's Family Planning Access, Care and Treatment (F-PACT) program.

BACKGROUND

The City of Berkeley has been receiving Title X Funds for over 25 years. Initially, the funds were used only to pay for services delivered at the Public Health Clinic, but as the high school Health Center has developed clinical service delivery and outreach and education programs, the allocations were expanded to fund these activities.

RATIONALE FOR RECOMMENDATION

These dollars support vital outreach activities, individual and community health education and reproductive health services for Berkeley residents. They are used for classroom presentations and clinical visits at the Berkeley High School Health Center and B-Tech. They also support clinical services at the Public Health Clinic and community education.

ALTERNATIVE ACTIONS CONSIDERED

If the award is not accepted, the City would not be able to provide these vital services to our community.
