RE: Notices of Proposed Lien on 2033 Haste St., Case#04-00001101,et. al.

Dear Sir/Madam,

In regards to the notices dated May 23, 2006, I am hereby requesting a hearing pursuant to BMC Section 1.24.170.A.4. We have submitted a request for adjustment of fees to the Housing Dep't and have not received any reply. We have, however, received no less than thirteen of these lien notices instead. We have made all specified repairs to the building in a timely manner. The nearly 200 items in our 60-unit building ranged from burnt-out light bulbs to a structural modification that is still ongoing at a cost that could easily reach \$ 100,000. Considering these costs and our demonstrated willingness to deal with the issues, we have asked for and expect some relief from these additional charges. We have not yet received a reply from Code enforcement.

Sincerely,

  
Vijay Lakireddy
