

Office of the Mayor

ACTION CALENDAR

June 12, 2007

To: Members of the City Council

From: Mayor Tom Bates

Subject: Amendment to May 22, 2007 Public Commons For Everyone Initiative (PCEI)

RECOMMENDATION

Request that the City Manager include exploration of creating “designated smoking areas”, along with drafting language for a no-smoking ordinance in commercial areas. As defined in the May 22nd PCEI item, this issue will be referred to the Community Health Commission for review and input.

BACKGROUND

The May 22nd Public Commons for Everyone directs the City Manager to return by November 20, 2007 with proposals for various efforts to improve street behavior and the environment in our commercial areas. One of the recommendations is to expand the No Smoking Ordinance in commercial areas. I would like the staff and Commission to also explore the viability of creating “designated smoking areas” in commercial zones.

FISCAL IMPACTS OF RECOMMENDATION
